WHO WE ARE

HISTORY

DISTRI-COM GROUPE, A solid foundation

The Distri-com Group was founded 20 years ago in France by Frédéric Fernandes.

Initially specializing in large-format digital printing, the group has grown over the years by integrating new expertise :

- ◆ Digital milling
- ◆ Painting / Lacquering
- ◆ Signage
- ◆ 2D and 3D polystyrene cutting
- ◆ Very large-format 3D printing
- ◆ Booth and events

In 2025, the Distri-Com Group acquired Tecna Display France, a manufacturer of custom-designed structural solutions for retail, booth, events, and museum displays, with distributors throughout Europe.

The Distri-Com Group thus offers its customers and resellers a complete and integrated range of services in the visual communication sector.

Europe's leading B2B network of specialized resellers in polystyrene cutting. France Polystyrène currently has over 2,000 resellers in Europe.

Large format digital printing on all media, indoor and outdoor signage, laser cutting and engraving, decoration, design and installation of modular booth.

Manufacturing of patented modular structures for retail, booth, events or museum design.

A CONTROLLED & EFFICIENT GLOBAL DISTRIBUTION

NORTH AMERICA & EUROPE

NORTH AMERICA DISTRIBUTION

The Distri-Com group in the United States is based in Miami, Florida, and benefits from a network of resellers throughout the North American continent.

We manufacture and ship throughout North American from our Miami factory, working with major courier and express carriers, thus guaranteeing shipments, including non-standard polystyrene parts.

For T3 products, we have several exclusive distributors located across USA who maintain local stock, facilitating rapid delivery of standard products or spare parts.

EUROPEAN DISTRIBUTION

The Distri-Com Group is based in France near Paris and benefits from a network of European resellers.

We manufacture and ship throughout Europe from our French factory, working with major courier and express carriers, thus guaranteeing shipments, including non-standard polystyrene parts.

For T3 products, we have several exclusive distributors located across Europe who maintain local stock, facilitating rapid delivery of standard products or spare parts.

THE FACILITIES MIAMI, FLORIDA

OUR NEW FACILITIES

Located in Miami, Florida, in our 5000 SF facility, centrally located with easy access to major thoroughfares.

Building on 20 years of experience in Europe, Distri-Com has replicated and adapted its proven model to Miami's infrastructure.

- ✓ 10-wire cutting

Mastering the entire ecosystem

For event or long-term use, polystyrene cutting offers a multitude of solutions: giant lettering, 3D logos, temporary decorations, commercial communication, or brand enhancement at a trade show booth. Mastering the entire ecosystem is the key.

POLYSTYRENE MORE THAN JUST FOAM

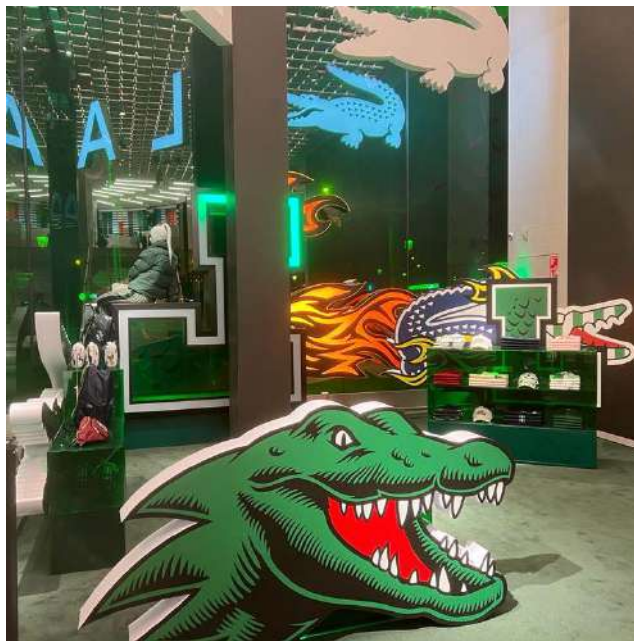

THE ONLY LIMIT IS YOUR IMAGINATION

What can be done with polystyrene?

Giant logos, events, international trade shows, set design, film sets, shop displays, XXL sculpture... the possibilities are endless, and our expertise allows us to position ourselves in all these markets simultaneously, guaranteeing quality workmanship and products.

T3 SYSTEM MODULAR DISPLAY

HANDMADE IN THE USA

T3 SYSTEM MODULAR DISPLAY

THE WORLD'S FIRST TRULY TOOL-FREE MODULAR DISPLAY

The T3 system is the most innovative modular solution on the market. Designed for tool-free assembly, it offers unlimited design possibilities. From light boxes to hanging signs, from modular exhibition stands to display cases and showcases, from illuminated walls to shelving, the T3 range adapts perfectly to your needs. The tubes can be cut to the desired length, bent to any diameter, angled at any angle, and finished in any RAL color, offering unparalleled flexibility for your projects.

SETUP THE FINAL STAGE

QUALITY ABOVE ALL

The finishing touch to your product is, of course, a clean and professional installation. We pride ourselves on installing your order under the best possible conditions; safety and expertise are our priorities to guarantee your satisfaction.
