CREATE IN COLOUR

Providing ALL the benefits of the ultimate modular framework system but in a range of bright and vibrant colours. Our profiles, connectors and accessories are provided in a range of standard colours, plus there is a custom colour option as well!

STANDARD COLOURS

The displayed colours represent the standard colours provided by T3 for the T3Deco range.

CANT DECIDE?

Why not choose you own colour using the RAL K5 fan deck which contains all of the 213 RAL Classics. For more information please visit our website at:
WWW.T3SYSTEMS.COM

CHARACTERISTICS

T3Deco has a range of accessories and profiles that can be used to provide unique characteristics to exhibition and retail displays. From a broad range of curved and angled profiles, to graphic and shelving mounts.

T3Deco colours can also be mixed and matched to create interesting combinations.

COMPONENTS

All T3Deco components come in our range of standard colours. Custom colours are also available, consult our colour palette for more details.

CURVED PROFILES

All profiles from the T3Deco profile range can be curved to angles ranging from 1° to 89°.

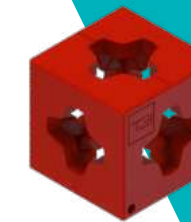

ANGLES

Custom channel angles are available in a range of colours. Providing the opportunity to introduce dynamic shapes into your displays.

MIX N' MATCH

Create multiple colour combinations between profiles, connectors and accessories for more vibrant displays.

ANGLES

Custom channel angles are available in a range of colours. Providing the opportunity to introduce dynamic shapes into your displays.

FEATURES

T3DECO has a range of accessories that are specially developed to enhance your retail and exhibition spaces. From counter tops and doors to multiple graphic accessories, anything is possible when using this innovative modular display system

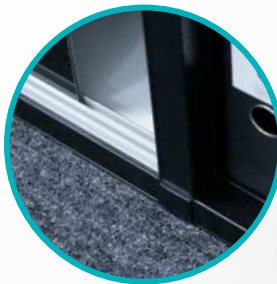

TOPS

Any type of top can be integrated in a permanent or temporary manner.

SLIDING DOORS

Create storage and product presentation spaces by including sliding door profiles.

RIGID PANELS

Rigid panels including shelving, internal panels and more can be included.

DUAL FABRIC

Create internally fitted fabric graphics. Making the most of the coloured profiles, connectors and beautiful graphics. This solution allows for a double sided graphic display to be created.

INTERNAL GRAPHICS

Make use of graphic clamps to mount rigid panels internally. Clamp positions can be adjusted or removed without dismantling the structure.

KEY FEATURE

T3 Frame structures can be built to heights of 6 metres.

BUILD IN COLOUR

Make use of the exposed coloured profiles to design inspirational, vibrant displays for every environment. With a range of coloured T3Deco accessories and extrusions available, creating displays for retail, exhibitions, pop-ups and even in the home.

KEY FEATURE

T3 Frame structures can be built to heights of 6 metres. Consult with our team for correct support and bracing configurations.
